

## Battery Operated Weld Shear

Pandrol's Light-Weight Battery-Operated Weld Shear provides a solution to zero-emission sheering, delivering consistently fast and excellent results. The Weld Shear is now available with incorporated battery technology delivering the proven power for removal of the welds that Pandrol have consistently brought to markets.

Designed to operate with the included battery operated non-impacting drill, the simple chuck attachment allows easy installation of the shear so it is quickly operational on the track. The hydraulic system provides adequate shearing force for welds in various types of infrastructure, both for grooved and vignole rail.

- Light-weight
- Latest battery technology
- High quality shear blades
- Adjustable bearing rollers
- Removable drill
- Clean efficient use

## Alpha Grinder

The Alpha Grinder extends the life of the track by grinding the complete profile in one operation, delivering the ergonomic design and precision efficiencies that Pandrol are renowned for.

The Alpha Grinder supports all standards of rail heads/profiles, using standard grinding stones. Ergonomically built, the lightweight unit enables easy raising and lowering of the carrying handles and includes an electric motor for auto-setting the height of the grindstone.

- Equipped for safety
- Superior ergonomics
- Power
- Environmental gains
- Precision grinding
