

ROSENQVIST PRODUCTS AVAILABLE AT DAVANAC

91-5100 TIE REPLACER, ROSENQVIST SB60

The Sleeper Replacer SB60 is a sleeper replacement attachment designed to provide safe and efficient replacement of sleepers. The SB60 has innovative tilt and rotate functions which allow sleepers to be changed from both the middle and side of the track.

91-5110 TIE LAYER, ROSENQVIST SL450

This carrier-mounted attachment is designed for high output sleeper laying. Correct placement of sleepers is ensured by the SL450's precision gauging hydraulic system that spreads the sleepers to the desired spacing, which can be set at 300 to 750 mm. (Sleeper layer available in 4,5,6, and 8)

91-5170 RAIL GRIP, ROSENQVIST RG3000 STANDARD

The Rail Grip RG3000 is specially designed to lift rail segments and pull them using a towing support welded to the side.

91-5180 ROLLER GRIP, ROSENQVIST RG4800

The RG4800 is a helpful handling tool designed for changing and moving rails efficiently and safely.

91-5120 CLIP DRIVER, ROSENQVIST CD200 IQ

The CD200 IQ is an intelligent clipping machine and the first machine in Pandrol's new IQ range, which use intelligent control systems to simplify operation. The new smart system can provide information on clips installed and number of operating hours, whilst also preventing incorrect use of the machine.

CD300 IQ CLIP DRIVER

Clip Driver CD300 IQ is a high-production clipping machine designed to install Pandrol Fastclip FC and FE. Its low weight makes it suitable for use on smaller road-rail machines from 6 tonnes and upwards.

91-5130 CLIP DRIVER, SELF-PROPELLED, ROSENQVIST CD400SP

The CD400SP is a robust walk-behind machine which can clip and declip a range of fastening systems. The CD400SP also provides hydraulic power to raise low sleepers.

RRT ROSENQVIST ROAD RAIL TRAILER

The Road Rail Trailer (RRT) can empty loads in three directions and can be used both on-road and on the railway. The RRT can load up to 12 tons and empty loads onto both sides of the track and backwards onto the track. This makes it ideal for transporting materials such as ballast from a depot out to track.
